

Kangaroo Didge (9x)

(Music and Lyrics by Mr I-Yurgen Ilaender)

Tell me, tell me, tell me, true, diddleedoo
Can a kangaroo play the didgeridoo, diddleedoo
Well, here we are in Australia, with a crazy kangaroo
Who tells me that he knows how to play the didgeridoo
Crickey and Fer Dingham, I've never heard of such a thing
But, let's give him a chance, and see what he can do.

Oh, can you make the sound of a dingo dog?.....
How about the sound of a boomerang in the air?.....
Aha! Here's one that'll git ya, A kookaburra laugh!

Well, I'll eat me hat for breakfast and I'll boil me boots for tea
A kangaroo on the didge is a sight I never thought I'd see.
Now, making all these crazy sounds, is absolutely fine
But I think we'd better teach him now to multiply nine

1x9 is 9 (repeats on all) 2x9 is 18, 3x9 is 27, 4x9 is 36, 5x9 is 45
6x9 is 54

Ha, Crikey, I'm a multiplying marsupial Ha.....Ah
7x9 is 63, 8x9 is 72, 9x9 is 81, 10x9 is 90, 11x9 is 99, 12x9 is 108
3x9 is 117 wow, (wow) he's doing great! (I am doing great)

now some come to Australia for adventure and excitement (they do) while others hit the outback for quiet and contentment (that too)

But I'll have to tell you true, I cannot tell a lie
I'm here to see a roo' play the didgereedoo (what roo?) and help him learn to multiply (ah that must be me)

Now, that's the craziest kangaroo I've ever seen in my life!.....(say what?)
Let's hear that Kookabura laugh once more.
That's absolutely amazing. Crickey! G'day mate!
Gonna have my vegemite sandwich now.
